MEO ANGELO Z. ALCANTARA

Full-Stack Developer & Project Management Professional

Surigao City, Philippines | meoangeloalcantara@gmail.com

PROFILE

Detail-oriented Information Technology professional and Magna Cum Laude graduate with demonstrated strength in full-stack web development and project management within a government institutional setting. Previously served as Project Management Officer I at Caraga State University, where responsibilities span web system architectures, monitoring and evaluation (M&E), and cross-functional team coordination. Proficient across modern frameworks and containerized development environments, with a consistent record of delivering functional systems on schedule. Seeks to bring this combination of technical capability and disciplined project execution to a private-sector software development role.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Nuxt.js

Backend: Nest.js, Laravel

Database & DevOps: PostgreSQL, Docker, WSL (Ubuntu)

Automation & AI: Python, FastAPI, n8n, local LLMs (Ollama), pgvector, GitHub Actions, gitleaks

Productivity: AI-assisted tools for document drafting, social media content, and workflow support

PROFESSIONAL EXPERIENCE

Project Management Officer I, *Caraga State University, Project Management Office* **Aug 2025 – Jul 2026**

- Contributed to CSU CORE, an internal university project-reporting system.
- Presented the dashboard prototype to university stakeholders at the "Operationalizing Results-Based M&E" capacity-building workshop (Oct 2025).
- Served as Technical Staff/Sub-Secretariat for the Constructors' Performance Evaluation System (CPEs), supporting PMO reporting and stakeholder communications.

On-the-Job Trainee, *CSU Technology Transfer & Licensing Office* **Jan 2025 – May 2025**

- Completed 486 hours of technical on-the-job training supporting the office's technology transfer and licensing operations.

PROJECTS & RECOGNITION

Web-based Portfolio Management System for Technology Transfer and Licensing Offices,

Co-Author – Kyushu University, Japan **Oct 2025**

- Co-authored a paper published in the Proceedings of the International Exchange and Innovation Conference on Engineering & Sciences (IEICES), Kyushu University, Japan with co-authors E. Morales, K. Abadinas, and S. Cedro (DOI: 10.5109/7395544).

PERSONAL PROJECTS

Project Agila: Private Local Knowledge Assistant,

Personal project **Oct–Nov 2026**

Python, FastAPI, PostgreSQL + pgvector, Docker, Ollama, discord.py, n8n, GitHub Actions

- Directed, tested and hand-graded a private, all-local RAG assistant built with Claude Code that answers only from saved links, notes and PDFs with citations, or refuses when the material does not support an answer.
- Delivered a CLI, a local API and a Discord bot on one shared core, plus n8n automations for a weekly digest and a save workflow, with privacy controls and 899 plain and 190 database tests; CI runs on GitHub Actions.
- Ran the build with written requirements, plans and gated releases (v0.1 to v1.0), and verified a fresh clone could reach a working answer in 14 min 8 s.
